

Vale Cycles of Evesham is a traditional cycle shop serving all areas of cycling. from the youngest child through racing cyclists to traditional touring and commuting cyclists.

Our retail shop can be found in the market town of Evesham and usually has over 100 bikes on display, with many more in the warehousing. Our aim however is to supply you with a cycle fit for you purpose. If we do not have a suitable and adequate product in stock, we know where we can get it from.

This site is set up as an advertising window, reflecting the diverse range of products available. We have not gone down the cycle path of offering goods 'on-line' due to the many specialist features they contain.
